

Sonofonic Acoustic Ceiling Panels

Supplementary Data Sheet

Edge Profiles

Sonofonic Ceiling Tiles and Panels are manufactured from high density compressed glasswool board, faced with a washable, durable, lightly textured painted surface. The panels offer excellent acoustic performance and come in standard white or black (or a range of special colours to order), and edge details to suit most ceiling suspension grid systems.

For more detailed information on the characteristics of Sonofonic Panels, including acoustic and fire performance, please request a Sonofonic brochure from Sontext.
