GeoTRAK® is an acoustic solution for a variety of interior applications.

GeoTRAK® is the PVC-Free alternative with the same design, dimensions, strength, fit, finish and ease of installation as our original FabriTRAK® profiles.

GeoTRAK® is used when there is a need for a PVC-Free interior environment that excludes the application of our traditional composition profiles for fabric* covered wall and ceiling applications.

* Including felt, leather, vinyl, and silk textiles.

100% Recyclable

Available in Black

Class A Fire Rated

No VOC Emissions
